

Ming Lee Ng

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a company with global reach.

WORK EXPERIENCE

Software Engineer at 100Devs, Los Angeles, CA

November 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

[Army Combat Fitness Test Tracker \(Fullstack Web App\)](#) – an application that serves a community of Soldiers by scoring and recording their mandatory physical fitness tests. It is a fully responsive modern design, built using HTML, CSS, JavaScript, Express as a framework for Node.js, and EJS as a templating language with MongoDB as a database.

[Federation Field Guide \(Fullstack Web App\)](#) – Users can search for any of their favorite aliens from the Star Trek franchise. This is a full-stack web application using a built from scratch API and client-side web app.

Clean Cuts El Paso (Client Website) – A fully functional static website built for a local customer. This website features multiple pages, meticulously crafted content, and a layout designed from the ground - up.

Other Projects: Small Lakes Casino Virtual Slot Machine, Los Angeles StarGazers Society Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more.

Full Stack Web Developer at Ming Lee's Software Solutions | El Paso, TX

June 2019 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses.

Operations Manager at United States Army | El Paso, Texas

Jul 2009 — Jun 2019

Served as the Transportation Manager for the control, coordination, and supervision of all movement operations for 250+ personnel. Managed the licensing, maintenance records, and dispatching of over 130 pieces of equipment valued at \$30M.
